BFKL evolution of the projectile

Corrections (blue = new, red = remove; see BFKL_check.pdf):

- Group I, Row II: the first form was a copy of Row III, d^3N_1. It is replaced by the log $\frac{\vee}{k^+}$ terms of Row II (Checks_JIMWLK_BFKL.pdf eq. (B:G1II2a)); the logarithmic term has no z left: $\int_{x,y,x'}$. Your "This can be written as" list is the reordering of these terms (exact).
- Group II, Row IV, third line (H_4): the sign + is missing at the start of the line (it was also missing in my Checks_JIMWLK_BFKL.pdf, corrected there).
- Colour-singlet form: measure $\int_{x,,z,w,w'} \to \int_{x,y,z,w,w'}$.
- Everything else is correct: the sum of all two-ρ lists and both forms of the BFKL contribution equal BFKL⊗LO (see BFKL_check.pdf).
